December 29, 2015

To the Honorable Tim Spencer, Chairman and Members of Cherokee County Council and to the Citizens of Cherokee County:

We are pleased to present this Comprehensive Annual Financial Report (CAFR) for Cherokee County, South Carolina. State law requires that every general-purpose local government publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) in the United States of America and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants. This report is published to fulfill that requirement for the fiscal year ended June 30, 2015.

GASB Statement No. 68 entitled *Accounting and Financial Reporting for Pension Plans* requirements became effective for financial statements for fiscal years beginning after June 15, 2014. The Statement requires that employers record a liability for their proportionate share of their plans collective Net Pension Liability, as well as deferred inflows and outflows of resources in their Statement of Net Position. The principal objective of the Statement is to improve the information provided in government financial reports related to pension obligations and resources.

GASB Statement No. 71 entitled *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68* became effective simultaneously with the provisions of Statement No. 68. This Statement eliminates a potential understatement of the restated beginning net position and expense in the first-year of implementation of Statement No. 68,

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive frame-work of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

McAbee, Schwartz, Halliday and Co., a firm of licensed certified accountants has issued an unmodified ("clean") opinion on the Cherokee County financial statements for the year ended June 30, 2015. The independent auditors' report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditors' report provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

Cherokee County was formed in 1897 and is located in the western part of South Carolina, known as the South Carolina Upstate. The Upstate is considered to be one of the top growth areas in both the state and the country. Cherokee County occupies 392 square miles and serves a population of 56,150.

Cherokee County is empowered to levy a property tax on both real and personal property located within its boundaries.

Cherokee County has operated under the council-administrator form of government since 1976. Policymaking and legislative authority are vested in the County Council, which consists of seven (7) District Council Members elected from single-member districts to four-year staggered terms. Council annually elects a Chairman and a Vice-Chairman. The County Council is responsible for passing ordinances, adopting the budget, appointing committees; and hiring the County Administrator and Clerk to Council. The County Administrator is responsible for carrying out the policies and ordinances of the County Council, for overseeing the day-to-day operations of the County, and for appointing all non-elected County department heads.

Local Economy

The South Carolina Upstate is widely recognized as a strong competitor in the global marketplace. As a medium-sized market, the region makes up one of the strongest manufacturing centers in the nation. The region is known for its ability to attract international and domestic firms by providing a pro-business environment and all of the necessary amenities for business growth.

Within South Carolina, the Upstate is recognized as the state's most progressive and industrialized region. A wide variety of political and economic forces in the Upstate have come together to produce a region that is diverse, clean, friendly, productive and economically healthy. Since 1990, the region has welcomed a tremendous influx of corporate headquarters, high-tech manufacturers, automobile manufacturing and related suppliers, national retailers, cultural and entertainment facilities, educational programs, and many other elements that have made our region a leader in economic development. The following are several key elements that have contributed to the Upstate as it is today:

International companies from all over the world know that the South Carolina Upstate is an excellent place to do business. Almost one-half of South Carolina's foreign firms are located in the region. Few comparably sized regions in the nation have a higher concentration of foreign firms.

The Upstate's reputation can also be attributed to the pro-business attitude of the local business community and government leadership. These groups have worked diligently for many years to create an environment in which businesses can thrive. Numerous public-private partnerships have set the stage for improved communication, support for economic development, enhanced participation in public affairs and sharpening the competitive edge of the Upstate industry.

Nationally, Cherokee County is ideally positioned for economic growth. It currently enjoys three distinct selection advantages over its competitors. First, an unbeatable location on the I-85 corridor in Upstate South Carolina between two of the nation's most dynamic and fastest growing metropolitan areas (Charlotte, N.C. and Greenville/Spartanburg, S.C.); second, significantly lower cost of doing business within the confines of the County, and third, superb utility services and capacity.

Current population figures show our population over 56,100 with a 6.4% unemployment rate (unadjusted) for October 2015. During the decade we have seen our economy transform from one almost entirely dependent on agriculture and textiles (the old south) to one which is rich in diversity. While agriculture and textiles still play an important role, our economy represents almost every major sector. With our County so competitively positioned, our future outlook is very positive with the development of two industrial parks and joining a regional alliance for recruiting more industry.

During fiscal year 2015, County Council approved the formation of the Cherokee County Economic Development Corporation ("Economic Development Corporation") for the purpose of participating in initiatives to sustain growth and economic development in the County.

In March, 2005, Duke Energy announced they have selected Cherokee County for a new potential nuclear power plant. In December 2007, Duke Energy submitted a combined construction and operating license application to the U.S. Nuclear Regulatory Commission for the proposed 2,234 mega-watt facility

that was accepted for review. Duke Energy has said that the development timeline of this project rests on the recovery of the economy. They continue to actively pursue the permits required to construct this facility in the coming years. It is estimated that construction jobs could peak at approximately 4,000 during the construction phase. Once construction is complete, the plant will employ 800 to 1,000 full-time employees.

Long-term Financial Planning and Major Initiatives

Due to the extension of tariffs to wireless phones in the state, the County has a source of funding for the additional services needed in the E-911 system. We implemented the necessary services according to the tariff requirements. Cherokee County E-911 system has just been modernized so that our equipment and trained personnel continue to be one of the best in the State and Nation.

Our future projects include:

A. Office Space

We are continuing our effort to make our services in the County as efficient and available as possible. We occupied the new County Administration building beginning in December 2012 and have continued to make efforts to better serve the community. This building houses various County offices that were previously located in separate buildings in the downtown business district. This project focused on consolidating many County departments into one centrally located facility in downtown Gaffney and utilizing technology to improve efficiency and reduce costs. This project was accomplished through the use of millage that was collected specifically for the construction of a new County Administration building and from the sale of bonds.

B. Recycling

In the past, Cherokee County has been very aggressive in setting recycling and reduction goals for better management of its solid waste. The County continues to work to meet the standard reduction goal of 35% of solid waste generated within the County. While all stated goals are important, education of the general public is essential if the County remotely expects to meet these goals. Waste reduction efforts are integrated completely with efforts at educating the public about the 3 R's: Reduce, Reuse and Recycle.

C. Finance Department

During the 2013 fiscal year, the County established a Finance Department to ensure that quality financial services and information are provided. Efforts continued during this fiscal year to develop and document processes to facilitate financial controls and compliance, streamline accounting and financial reporting, re-enforce policies for procurement and payment of county-wide obligations and to partner with other departments and outside entities to leverage resources to meet mandates and objectives. It is the responsibility of the Finance Department to respond to changing requirements and priorities necessary to serve the County Administration and Council, the citizens, the employees, vendors and other agencies throughout the County and the State.

Relevant Financial Policies

In accordance with the annual budget Ordinance, Cherokee County utilizes a balanced budget process for general government revenues, and operations and capital expenses. The on-going budget review process with County Council facilitates the review of day-to-day operations, as well as the long-term sustainability of revenues and need for capital investments.

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement of Excellence in Financial Reporting to Cherokee County for its

comprehensive annual financial report (CAFR) ended June 30, 2014. This was the seventeenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. The CAFR must satisfy both the U.S. generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to conform to the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine the eligibility for another certificate.

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Administration, Treasury and Finance Departments. Each member of those departments has our sincere appreciation for their contribution toward the preparation of this report.

In closing, we would like to say that without the leadership and support of the Cherokee County Council preparation of this report would not have been possible.

Respectfully submitted,

J. Holland Belue

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Cherokee County, South Carolina as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Cherokee County, South Carolina, as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

Change in Accounting Principle

As discussed in Note 5 to the financial statements, in 2015 Cherokee County adopted new accounting guidance, Statement No. 68 of the Governmental Accounting Standards Board (GASB), *Accounting and Financial Reporting for Pensions – an amendment of GASB Statements No. 27*, and *GASB Statement No. 71, Pension Transition from Contributions Made Subsequent to the Measurement Date, an amendment of GASB Statement No. 68*. The implementation of GASB Statements No 68 and 71 resulted

in the restatement of beginning net position. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Cherokee County, South Carolina's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, the statistical section, and the compliance section as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules and the compliance section as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules and the compliance section as listed in the table of contents are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2015, on our consideration of Cherokee County, South Carolina's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Cherokee County, South Carolina's internal control over financial reporting and compliance.

McAbee, Schwartz, Halliday & Co.

Spartanburg, South Carolina
December 29, 2015

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Cherokee County's financial performance provides an overview of the County's financial activities for the year ended June 30, 2015. This section should be read in conjunction with the financial statements.

FINANCIAL HIGHLIGHTS

The following are key financial highlights for the fiscal year:

- The assets of the County exceeded its liabilities at June 30, 2015 by \$33,883,235 (net position). This amount is less than net investment in capital assets by \$2,419,361. Net position categories show the portion that must be spent for specific purposes.
- The County's total net position decreased by \$15,492,246. This decrease was due to implementing new accounting standards by restating beginning net position by (\$19,397,775). Current year activities resulted in an increase of \$3,905,529, \$3,189,298 of which was from governmental activities and \$716,231 was from business-type activities.
- As of June 30, 2015, the County's governmental funds reported combined ending fund balances of \$27,209,961, an increase of \$5,555,716 (including \$4,272,983 from the affiliated Economic Development Corporation) from the prior year. Of the combined ending fund balances amount, \$11,453,702 is available for use at the County's discretion.
- At June 30, 2015, unassigned fund balance for the General Fund was \$11,422,304, or approximately 58 percent of total general fund expenditures and transfers out.
- The County's total long-term debt (excluding landfill closure costs, unfunded OPEB costs and compensated absences) increased by \$3,398,826. This increase is due to the affiliated Economic Development Corporation acquired debt of \$4 million to invest in economic development projects, offset by a decrease of \$601,174 or 8.13 percent in County obligations during the fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise four components: government-wide financial statements; fund financial statements; notes to the financial statements, and required supplementary information. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of Cherokee County's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of Cherokee County's assets and liabilities, with the difference of the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Cherokee County is improving or deteriorating. Net position shows restrictions on these assets. During fiscal year 2015, implementation of new accounting standards, (GASB 68 and GASB 71) impacted the net position in fiscal year 2015, the period of adoption. The effect of restatement has been shown on the Financial Statements and Notes to Financial Statements. Also, during fiscal year 2015, County Council approved the formation of the affiliated Cherokee County Economic Development Corporation ("Economic Development Corporation") for the purpose of participating in initiatives to sustain growth and economic development in the County.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event

giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, transportation, health and human services, environmental and housing, culture and recreation, economic development initiatives, and other. The business-type activities of the County include geriatric care.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate comparison between governmental funds and governmental activities.

Cherokee County maintains fifty-one individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general and capital projects funds and economic development corporation, which are considered to be major funds. Data from the other forty-eight governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The County adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with these budgets.

Proprietary Funds - The County maintains one type of proprietary fund, an enterprise fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses an enterprise fund to account for its geriatric care.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the proprietary operations, which is considered to be a major fund of the County.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds, no operations but rather assets equal liabilities. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information containing budget to actual comparisons for the general fund and information concerning the County's progress in funding its obligation to provide OPEB benefits to its employees. The combining statements referred to earlier in connection with nonmajor governmental funds, fiduciary fund data, and capital asset data are presented following the required supplementary information section.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

* Prior year amounts are not restated for MD&A purposes and percentage changes for certain related amounts would not be meaningful.

Net position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by \$33,883,235, as of June 30, 2015. (See Table 1). The largest portion of the County's net position reflects its investment in capital assets (e.g. land, buildings, machinery and equipment, infrastructure), less any related debt to acquire those assets still outstanding. These capital assets are used to provide services to citizens; consequently these assets are not available for future spending. It should be noted that the resources required to repay the related debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the County's ongoing obligations to citizens and creditors. The County's total net position decreased by \$15,492,246 from the impact of implementing new accounting standards that had the effect of restating beginning net position by (\$19,397,775). Current year activities resulted in an increase of \$3,905,529.

* Prior year amounts are not restated for MD&A purposes and percentage changes for certain related amounts would not be meaningful. Fiscal year 2015 Beginning Net Position reflects the restated amounts.

Change in net position. The County's total revenues increased by 1.6 percent to approximately \$36.1 million (See Table 2). This change was caused by increases in charges for services, property and other taxes and capital grants and contributions, partially offset by a decrease in operating grants and contributions and state aid to political subdivisions.

The County's total cost of all programs and services had only an increase of 0.2 percent. This increase was caused primarily by increases in payroll and benefits expense, offset by reduced fuel and utility expense and interest expense.

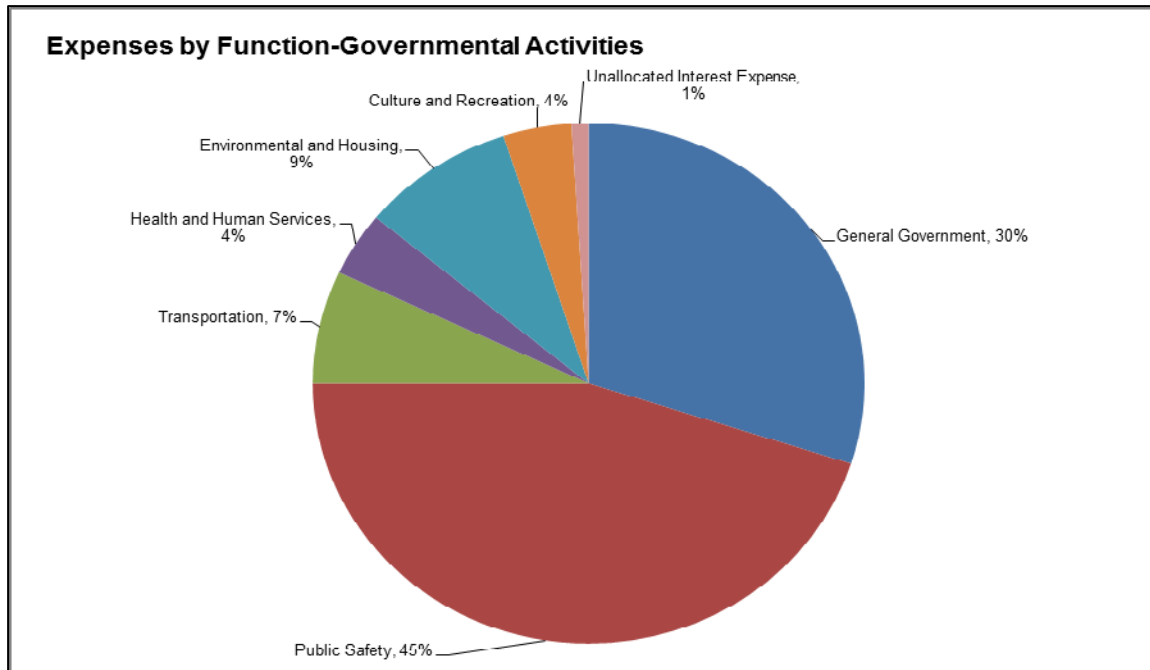

Governmental Activities

The County's governmental activities had net (expense) revenue of (\$17,885,917). However, these services are intended to be primarily funded by taxes, as opposed to charges for services and grants, and those taxes and other general revenues did exceed net expenses by \$3,189,298.

Total revenues for the County's governmental activities increased by 1.6 percent, and total expenses decreased 1.5 percent. Factors contributing to these results included:

- Increases in property taxes, due primarily to property reassessment and a millage increase.
- Increases in fines, capital grants and fees, partially for infrastructure reimbursements.
- Increases in charges for services primarily for landfill fees, building permits, and court fines and fees.
- Increases in payroll and benefits costs across all functions.
- Decreases in fuel and utility costs across all functions.
- Transportation expenses decreased due to reduced bridge projects performed by the County. Many of these activities were performed by County personnel to control costs of infrastructure improvements.

Business-type Activities

The business-type activities had net revenues of \$716,231.

Revenues of the County's business-type activities increased 1.4 percent to \$8,687,868, while expenses increased 5.8 percent to \$7,971,637. Factors contributing to these results included:

- Revenues increased due to increases in private charges for nursing home services, partially offset by decreases in Medicare/Medicaid charges for services. The Upper Payment Limit charges included in the Medicare/Medicaid revenues totaled \$1,118,791 for 2015.
- The higher demand impacted the amount of nursing staff needed causing an increase in salaries and benefits.
- The decrease in depreciation related to net capital assets.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of its fiscal year.

At June 30, 2015, the County's governmental funds reported combined ending fund balances of \$27,209,958, an increase of \$5,555,715 from the prior year. This increase resulted from \$4,272,983 from the affiliated Economic Development Corporation and \$1,880,241 increase in the general fund, primarily attributable to increases in charges for services, property and vehicle tax revenues and continued cost control efforts.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS – continued

Approximately 42 percent of the combined fund balances (\$11,453,702) constitute unassigned fund balance, which is available for spending at the County's discretion. Twenty-six percent of the combined fund balances (\$6,989,429) is assigned for various types of cultural, administrative and capital projects. The majority of the remaining balance is restricted (\$7,370,241) to indicate that it is not available for new spending because it has constraints established by parties outside the government or by enabling legislation. The remainder of the balance is nonspendable; which is comprised of prepaids (\$496,026), non-current receivables (\$360,718) and assets held for resale (\$539,845).

The general fund is the chief operating fund of the County. At June 30, 2015, unassigned fund balance of the general fund was \$11,422,304 and total fund balance was \$15,305,436. As a measure of the general fund's liquidity, the unassigned fund balance represents approximately 58 percent of total general fund expenditures and transfers out.

The capital fund has a total fund balance of \$1,425,802, of which, \$1,065,084 is assigned for capital projects. The net decrease in fund balance during the current fiscal year was \$498,371. Funds were primarily spent for the continued migration of departmental services to the new County Administration building and infrastructure improvement expenditures. The remainder of the balance is a long-term receivable due from the County Recreation District for funds provided for new building construction.

Proprietary Funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements but in more detail.

Peachtree Centre's total revenues increased 1.4 percent in comparison to prior year revenues while expenses increased approximately 5.8 percent over prior year expenses. Unrestricted net position of the Peachtree Centre was (\$2,017,278) at June 30, 2015. This reflects the impact of the implementation new accounting standards by restating beginning net position by (\$5,592,284). Current year activities resulted in an increase of \$716,231 was from business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

A budget and actual comparison schedule for the General Fund is provided in the Required Supplementary Information. The schedule shows the original adopted budget, the final budget, the actual results on GAAP basis, and the variance between budget and actual. After the original budget is approved, it may be revised for a variety of reasons such as unforeseen circumstances, new bond or loan proceeds, new grant awards, or other unanticipated revenues.

Actual revenues were higher than the projected amounts by \$1,059,399 primarily due to increased charges for services and tax revenues. Actual expenditures were under budget by \$772,006 due to the continued implementation of cost control measures in the general government, environmental and housing and transportation (roads and bridges), partially offset by increases in salary and related employee benefit costs, primarily due to overtime wages in public safety departments. The departments where expenditures over appropriations were related to overtime are: 911 Communications - \$45,778, Sheriff's Office - \$295,595 and Detention Center - \$201,865.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of June 30, 2015, the County had \$80,083,929 invested in capital assets including police and fire equipment, buildings, infrastructure, etc. (See following table). This represents a net increase of \$3,294,394 or 4.3 percent, over last year.

	Governmental Activities		Business-type Activities		Total		Total Percent Change
	2015	2014	2015	2014	2015	2014	2014-2015

Total Net Capital Assets	\$ 42,591,839	\$ 41,664,929	\$ 500,757	\$ 554,905	\$ 43,092,596	\$ 42,219,834	2.1%

Additional information on the County's capital assets can be found in Note 3(C) to the financial statements.

Long-term Debt

At year-end, the County had \$6,790,000 in outstanding general obligation bonds and capital leases, compared to \$7,391,174 last year. That is a decrease of 8.1 percent as shown in the following table.

	Governmental Activities		Business-type Activities		Total		Total Percent Change
	2015	2014	2015	2014	2015	2014	2014-2015
General Obligation Bonds	\$ 6,790,000	\$ 7,380,000	\$ -	\$ -	\$ 6,790,000	\$ 7,380,000	-8.0%
Capital Lease		11,174	-	-	-	11,174	-100.0%
Total Long-term Debt	\$ 6,790,000	\$ 7,391,174	\$ -	\$ -	\$ 6,790,000	\$ 7,391,174	-8.1%

More detailed information about the County's long-term liabilities is presented in Note 3(F) to the financial statements. Also, included in Note 3(F) is information related to the \$4 million long-term loan payable of the affiliated Economic Development Corporation.

Other obligations of the County include accrued compensated absences, other post-employment benefits and landfill closure and post closure costs.

The state limit for amount of general obligation debt the County can issue is 8 percent of the assessed value of all taxable property within the County's legal limits. Outstanding debt is below this limit – which is currently \$13.16 million.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Local, national and international economic factors influence the County's revenues. Positive economic growth is correlated with increased revenues from property taxes, sales taxes, charges for services, as well as state and federal grants. Economic growth in the local economy may be measured by a variety of indicators such as employment growth, unemployment, new construction, assessed valuation, and Enterprise Fund revenues.

One major factor is that, although it has declined, the unemployment rate for the County is currently 6.4%. This was higher than the unemployment rate for the state of South Carolina (6.7%) and even higher than the national unemployment rate (5.8%).

All of these factors were considered in the approval of the 2016 increase in the County's millage rate of 3.2 mills for a total property millage rate of 91.6 mills for 2016.

Budgeted 2016 operations expenditures (excluding capital budgeted expenditures) are expected to increase by \$848,021, which is 4.2 percent over the final 2015 budget. This increase is primarily due to the approval of a 1% compensation increase related to health care premium and retirement cost increases for County employees. The County has added no major new programs or initiatives to the 2016 budget.

CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the County's finances and to show the County's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the County Administrator at 110 Railroad Avenue, Gaffney, South Carolina.

CHEROKEE COUNTY, SOUTH CAROLINA
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
 AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED JUNE 30, 2015

Net Change in Fund Balance - Total Governmental Funds \$ 5,555,715

Amounts reported for governmental activities in the statement of activities
 are different because:

Governmental funds report capital outlay as expenditures. However,
 in the statement of activities, the cost of those assets is allocated
 over their estimated useful lives and reported as depreciation
 expense. This is the amount by which capital outlay exceeded
 depreciation in the current period.

Capital outlay	4,152,261	
Depreciation expense	<u>(3,116,817)</u>	1,035,444

In the statement of activities, only the gain on the sale of assets is
 reported whereas in the governmental funds, the proceeds from the
 sale increase financial resources. Thus, the change in net position
 differs from the change in fund balances by the net book value of
 the assets sold or contributed:

Net book value of asset dispositions	(108,534)
--------------------------------------	-----------

Revenues in the statement of activities that do not provide current
 financial resources are not reported as revenues in the funds.

Property taxes	41,895
----------------	--------

Repayment of debt principal is an expenditure in the governmental funds,
 but the repayment reduces long-term liabilities in the statement of net
 position.

Principal repayments:		
General obligation bonds	590,000	
Capital lease obligation	<u>11,174</u>	601,174

Loan proceeds are recorded as revenue in governmental funds	(4,000,000)
-------------------------------------------------------------	-------------

Some expenses recorded in the statement of activities do not require
 the use of current financial resources and, therefore, are not reported as
 expenditures in governmental funds.

Change in accrued interest payable	3,411	
Change in compensated absences	(72,792)	
Change in unfunded OPEB costs	(103,809)	
Change in landfill closure/post closure costs	<u>290,123</u>	116,933

The cost of pension benefits earned net of employee contributions is
 reported in the Statement of Activities as an element of pension expense.
 The fund financial statements report pension contributions as expenditures.

	<u>(53,329)</u>
--	-----------------

Change in Net Position of Governmental Activities	<u><u>\$ 3,189,298</u></u>
---------------------------------------------------	----------------------------

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Cherokee County, South Carolina (the County) operates under Home Rule legislation effective July 1, 1976. The County operates under a Council-Administrator form of government and provides the following services as authorized by its charter: Public safety (police and fire), highway and street maintenance, sanitation, health and social services, culture-recreation, public improvements, and general administration services.

Cherokee County is a corporate government entity incorporated under the South Carolina Home Rule Act and is governed by an elected seven member County Council. These financial statements present the government as required by accounting principles generally accepted in the United States of America. As required by U.S. generally accepted accounting principles, these basic financial statements present the government and its component units, entities for which the government is considered to be financially accountable. A blended component unit, although a legally separate entity is, in substance, part of the County's operations, and data from the unit is presented in capital projects funds within the County's governmental activities. The County has no discretely presented component units. The following entity is presented as a blended component unit:

Cherokee County Economic Development Corporation – The corporation is a public benefit non-profit corporation established under State law. The Corporation is organized to develop and implement economic development strategies for commercial, industrial, residential and other development in the County in order to improve the economic health of the County.

The County's comprehensive annual financial report includes the accounts of all County operations. The financial statements of Cherokee County, South Carolina, have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

B. Basis of Presentation

The County's financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information. The accounts of the County are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. There are three categories of funds: governmental, proprietary and fiduciary.

Government-wide Financial Statements:

The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

B. Basis of Presentation - Continued

Government-wide Financial Statements: - Continued

The statement of net position presents the financial condition of the governmental and business-type activities for the County at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program and function of the County's governmental activities and for the business-type activities of the County. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods and services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and the interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, and all taxes, are presented as general revenues of the County, with certain limited exceptions.

The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

Fund Financial Statements:

The County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a single column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

The County reports the following governmental fund types:

General Fund - The General Fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - The special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The term "proceeds of specific revenue sources" establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

Debt Service Funds - The debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Capital Projects Funds - The capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations or other governments.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

B. Basis of Presentation - Continued

Fund Financial Statements: - Continued

The County has the following major capital projects funds:

1. Capital Projects Fund – is used to account for funds to be used for the acquisition or construction of capital facilities and other capital assets.
2. Economic Development Corporation Fund – is used to account for the acquisition and construction of facilities or infrastructure for the promotion of economic development within the County.

The County reports the following major enterprise fund:

Peachtree Centre - This fund is used to account for the County's geriatric care operations.

Additionally, the County reports the following fund type:

Fiduciary Fund - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. The agency fund is custodial in nature (assets equals liabilities) and does not involve measurement of results of operations. The County's fiduciary fund category includes agency funds for education, clerk of court, family court, property taxes, magistrates, and others.

C. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

Government-wide Financial Statements

The government-wide financial statements are reported using the *economic resources management focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. All assets and liabilities associated with the operation of the County are included on the statement of net position.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C. Measurement Focus and Basis of Accounting – Continued

Government-wide Financial Statements – continued

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's enterprise funds functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Fund Financial Statements

All governmental funds are accounted for using a flow of *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, licenses, and interest are susceptible to accrual. Taxes collected and held by the state at year end on behalf of the County are also recognized as revenue. Other receipts and taxes become measurable and available when cash is received by the County and are recognized as revenue at that time.

With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C. Measurement Focus and Basis of Accounting - Continued

Fund Financial Statements - continued

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Agency funds have no measurement focus, but rather are custodial in nature (assets equal liabilities).

Revenue - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the County, available means expected to be received within sixty days of fiscal year-end.

Non-exchange transactions, in which the County receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: delinquent taxes, sales tax, grants, interest, fees and charges for services.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the County, available means expected to be received within sixty days of fiscal year-end.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C. Measurement Focus and Basis of Accounting - Continued

Unearned Revenue

The County reports unearned revenue on its statement of net position and governmental funds balance sheet. In both the government-wide and governmental fund statements, resources received that are "intended to finance" a future period are reported as unearned revenue. In subsequent periods, the liability for unearned revenue is removed from the statement of net position and governmental funds balance sheet and revenue is recognized.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Equity

Cash and Investments

The County pools the cash of substantially all special revenue funds into an internal cash pool that is available for use by all special revenue funds. Each individual fund's portion of the pool is displayed on the combined balance sheet as cash.

The Cherokee County Public Library and the Cherokee County Development Board maintain separate cash and investment accounts, generally in the form of cash in the bank and certificates of deposit.

For statement of cash flows purposes, the enterprise fund considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Investments with a readily determined fair value are stated at fair value which approximates cost. State statutes authorize the County to invest in obligations of the United States and its agencies, general obligations (not revenue obligations) of the State of South Carolina and its political subdivisions, savings and loan associations to the extent of federal insurance, certificates of deposits collaterally secured, repurchase agreements secured by the foregoing obligations, and the State Treasurer's Investment Pool

Receivables

All trade and property taxes receivable are shown net of an allowance for uncollectibles.

Intergovernmental Receivable

Amounts due from federal grants represent reimbursable costs, which have been incurred by the County but have not been reimbursed by the grantor agency. Costs under grant programs are recognized as expenditures in the period in which they are incurred by the County.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Equity - Continued

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Reported prepaid items in the Governmental Fund Types are equally offset by a fund balance reserve which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The County defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized by governmental or business-type activities.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds over the same period.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40 - 45
Improvements other than buildings	5 - 10
Machinery and equipment	3 - 15
Infrastructure	20 - 40
Books	5 - 10

Deferred Inflows/Outflows of Resources

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County's only deferred outflows of resources are related to pensions.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Equity - Continued

Deferred Inflows/Outflows of Resources - continued

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. The County has two types of items that qualify for reporting in this category. The net property taxes receivable estimated to be collectible in more than 60 days subsequent to June 30, 2015 and deferred amounts related to pensions are reported as deferred inflows of resources

Compensated Absences

The County's annual leave policy allows accumulation, with supervisor approval, of a maximum of four weeks vacation to be paid to employees upon termination. Sick leave can be accumulated, up to a maximum of sixty days, but it is not paid upon termination. There is no liability for unpaid accumulated sick leave since the County does not have a policy to pay any amounts when employees separate from service with the County. All vacation pay is recorded when accrued by the employee in the government-wide financial statements. The general fund is typically used to liquidate the liability for compensated absences.

Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position and Fund Balances

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Equity - Continued

Net Position and Fund Balances – continued

The classifications used in the governmental fund financial statements are as follows:

Nonspendable – This classification includes amounts that cannot be spent because they are either a) not in spendable form or b) are legally or contractually required to be maintained intact. The County has classified assets held for resale, inventories, prepaid items, and long-term portions of receivables and advances as being nonspendable as these items are not expected to be converted to cash or are not expected to be converted to cash within the next current fiscal year.

Restricted - This classification includes amounts for which constraints have been placed on the use of the resources through either a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments or b) imposed by law through constitutional provisions or enabling legislation.

Committed - This classification includes amounts that can only be used for specific purposes pursuant to constraints determined by a formal action of the government's highest level of decision making authority. County Council is the highest level of decision-making authority for the government that can, by adoption of an ordinance, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

Assigned - This classification includes amounts that are constrained by the County's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the County Council or by an official or body to which the County Council delegates authority. County Council has delegated this authority to the Assistant County Administrator. This classification captures fund balance held to meet anticipated expenditures of budget carryforwards, except where other external constraints or Council ordinances require that the fund balance be classified as restricted or committed.

Unassigned - This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balances of any other governmental fund that cannot be eliminated by the offsetting of assigned fund balance amounts.

The County first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

The County would typically use restricted fund balances first, followed by committed resources and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first and to defer the use of those other classified funds.

Proprietary fund equity is classified the same as in the government-wide statements.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Equity - Continued

Net Position

The County's total assets and deferred outflows of resources less total liabilities and deferred inflows of resources represent net position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments.

Accounting Estimates

The financial statements include estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenditures. Actual results could differ from these estimates.

Reclassifications

Certain amounts presented in prior year data have been reclassified in order to be consistent with the current year's presentation.

Interfund Transactions

Transactions which constitute reimbursements to a fund for expenditures initially made from it which are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the reimbursed fund.

Transactions, which constitute the transfer of resources from a fund receiving revenues to a fund through which the revenues are to be expended, are separately reported in the respective fund's operating statements.

Activity between funds that are representative of lending/borrowing arrangements at the end of the fiscal year are referred to as "due to/from other funds" in the fund financial statements. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgets and Budgetary Accounting

Annual budgets are adopted for the general fund on the modified accrual basis.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - Continued

A. Budgets and Budgetary Accounting - Continued

The County Council follows these procedures in establishing the budget data reflected in the financial statements:

Prior to June 1, the Administrator submits to the County Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes expenditures and the means of financing them for the upcoming year.

Public hearings are conducted at the County Administration Building to obtain taxpayer comment.

Prior to June 30, the budget is legally enacted through passage of an ordinance.

The County Administrator is authorized to transfer budget amounts within departments in the general fund. The County Administrator may transfer funds between departments with the approval of County Council. The legal level of control is the department level.

Formal budgetary integration is employed as a management control device during the year.

The County Council may authorize supplemental appropriations during the year.

B. Encumbrances

Under encumbrance accounting, outstanding purchase orders are recorded in order to reserve that portion of the applicable appropriation in the governmental fund types. Encumbrances outstanding at year end are carried forward and are reported as committed fund balance.

C. Excess of Expenditures Over Appropriations

For the year ended June 30, 2015, expenditures exceeded appropriations in the following departments:

General Government	
Human Resources	\$ 3,701
Information Technology	8,012
Central Purchasing	20,845
Courthouse	2,407
Development Board	285
Building Inspectors	5,307
Poll Workers	32,934
Magistrate - Gaffney	4,633
Clerk of Court	3,556
Register of Deeds	1,315
Attorney/Judicial	6,482
Clerk of Court Support	4,904
Public Safety	
Communications	45,778

Health and Human Services	
County H&H Services	394

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 3 - DETAILED NOTES ON GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Deposits and Investments

Statutes authorize the County to invest in obligations of the United States and its agencies, general obligations (not revenue obligations) of the State of South Carolina and its subdivisions, savings and loan associations to the extent of federal insurance, certificates of deposit collaterally secured, repurchase agreements secured by the foregoing obligations, and the State Treasurer's Investment Pool. The State Treasurer's Investment Pool is not rated. The County has not adopted a formal deposit or investment policy. The State Treasurer's Investment Pool is a 2a7-like pool, which is not registered with the Securities and Exchange Commission (SEC), but has a policy that it will operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it. The County does not have a deposit policy for custodial credit risk. All of the County's deposits at June 30, 2015 were covered by federal depository insurance or by collateral held in the pledging financial institution's trust department in the County's name.

B. Taxes Receivable

Property Tax Receivable

The County property tax is levied each fall (except automobiles which are annually assessed on the first day of the month the automobiles are registered) on the assessed valuations of property located in the County as of the preceding January 1. The books are open for collection September 30 with the first penalty, three percent, applicable to payments made after January 15, the due date. An additional seven percent penalty is added to payments made after February 1, and an additional 5 percent penalty plus costs is added after March 16. Property taxes attach as an enforceable lien, and are considered delinquent if not paid by March 16.

Property taxes on vehicles are billed by the 15th day of the month preceding the expiration date of South Carolina vehicle licenses, and are due by the last day of that month.

Assessed values for real estate are established annually by the County Tax Assessor at 4% of market value for legal residence and 6% of market value for rental and other real property. Real property in the County for the 2015 levy was assessed at \$103,986,030, representing 5% of estimated market value. Assessed values for personal property are established by the County Auditor and the South Carolina Department of Revenue at 10.5% of the estimated market value. The 2015 assessed value for personal property was \$68,281,320. The County tax rate is currently 88.40 mills. The following is a schedule of current and net delinquent taxes receivable by fund:

	Gross Delinquent Taxes Receivable	Allowance for Uncollectibles	Net Delinquent Taxes Receivable	Current Taxes Receivable	Taxes Receivable (Net)
Governmental Funds					
General fund	\$ 506,271	\$ 133,200	\$ 373,071	\$ 802,743	\$ 1,175,814
Capital fund	36,519	9,608	26,911	7,422	34,333
Debt service fund	43,094	11,337	31,757	8,858	40,615

NOTE 3 - DETAILED NOTES ON GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS
- Continued

B. Taxes Receivable – continued

Local Option Sales Tax - Property Tax Relief

In 2008, the Cherokee County voters approved a referendum to impose a one percent local option sales tax. This tax was imposed beginning May 2009. Of the revenues collected from this tax, 29% is available to the County to fund capital projects and 71% is being used as a credit against ad valorem taxes and vehicle taxes. This credit first appeared on ad valorem tax notices mailed in October 2009 and on vehicle tax notices beginning with those notices for January 2010.

The County has established a Local Option Sales Tax – Property Tax Relief account to account for the liability of local option sales tax collections in excess of local option sales tax credits applied on property tax notices. As of June 30, 2015 the balance in this account, included in the general fund, was \$1,969,204.

C. Capital Assets

Primary government capital asset activity for the year ended June 30, 2015 was as follows:

	Balance June 30, 2014	Additions	Deletions	Balance June 30, 2015
Governmental Activities				
Capital Assets Not Being Depreciated:				
Land	\$ 1,688,895	\$ -	\$ -	\$ 1,688,895

Geriatrics	<u>90,458</u>
Total	<u>\$ 3,207,274</u>

D. Interfund Receivables, Payables and Transfers

During the course of its operations, the County has numerous transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and service debt. The accompanying financial statements generally reflect such transactions as transfers.

Operating subsidies are also recorded as transfers. The classification of amounts recorded as subsidies, advances or equity contributions is determined by County management. To the extent that certain transactions between funds had not been paid or received as of year-end, balances of interfund amounts receivable or payable have been recorded.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

**NOTE 3 - DETAILED NOTES ON GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS
- Continued**

D. Interfund Receivables, Payables and Transfers - Continued

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

The following is a summary of interfund receivables and payables at June 30, 2015:

	<u>Receivable</u>	<u>Payable</u>
Interfund:		
General Fund	\$ 2,502,144	\$ 366,556
Capital Projects Fund	-	2,053,854
Nonmajor Special Revenue Funds	35,187	756,460
Economic Development Corporation	272,983	
Debt Service Fund	366,556	-
	<u>\$ 3,176,870</u>	<u>\$ 3,176,870</u>

Advances are used for long-term interfund loans. The Enterprise Fund has an outstanding advance at June 30, 2015. The General Fund is holding these advanced funds for the Enterprise Fund until the Enterprise Fund needs the funds. There is no fixed schedule for these funds to be returned.

	<u>Receivable</u>	<u>Payable</u>
General Fund	\$ -	\$ 1,440,536
Enterprise Fund	1,440,536	-
	<u>\$ 1,440,536</u>	<u>\$ 1,440,536</u>

The following is a summary of interfund transfers for the year ended June 30, 2015:

	<u>Transfers In</u>	<u>Transfers Out</u>
Major Governmental Funds:		
General Fund	\$ 1,732,352	\$ 309,000
Capital Projects Fund	-	832,725
Non-Major Special Revenue Funds	311,245	901,872
	<u>\$ 2,043,597</u>	<u>\$ 2,043,597</u>

During the year, transfers were used to 1) move funds from the Capital Projects Fund to the General Fund as approved in the 2014-2015 Budget and 2) for routine transfers of funds to and from other funds, such as covering of certain expenditures from special revenue grants.

E. Operating Lease Commitments

The County has operating leases for computer, copier and fax equipment as well as land and office spaces that are not cancelable. Commitments for rental expenses under these leases, expiring between 2016 and 2018 are as follows:

Year Ending June 30,	
2016	17,995
2017	17,995
2018	12,723
	<u>\$ 48,713</u>

Total lease expense, including lease payments based on usage, for the year ended June 30, 2015 was \$54,338.

F. Long-term Debt

The following is a summary of debt transactions for the County for the year ended June 30, 2015:

	Balance June 30, 2014	Additions	Reductions	Balance June 30, 2015	Due Within One Year
Governmental Activities					
General Obligation Bonds	\$ 7,380,000	\$ -	\$ 590,000	\$ 6,790,000	\$ 610,000

NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

**NOTE 3 - DETAILED NOTES ON GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS
- Continued**

F. Long-term Debt – Continued

General Obligation Bonds – continued

Future principal and interest payments of the General Obligation Bonds are as follows:

Fiscal Year	General Obligation Bonds		
	Principal	Interest	Total
2016	610,000	230,860	840,860
2017	630,000	210,120	840,120
2018	650,000	188,700	838,700
2019-2025	4,900,000	658,070	5,558,070
	<u>\$ 6,790,000</u>	<u>\$ 1,287,750</u>	<u>\$ 8,077,750</u>

Loan Payable

During the year, The Cherokee County Economic Development Corporation entered into a loan agreement with the South Carolina Public Service Authority to finance the purchase of land and designing and constructing an industrial speculative building in the Spartanburg-Cherokee Industrial Park. The loan is collateralized by real estate. The term of the loan is for 10 years concluding on June 16, 2025, with annual principal payments of \$571,429 beginning in 2019. The loan shall bear interest at 0% for the first three years. At or upon June 17, 2018, the interest rate is to be determined (TBD) based on the following:

Fiscal Year	Principal	Interest	Total
2016	-	-	-
2017	-	-	-
2018	-	-	-
2019	571,429	TBD	(1)
2020	571,429	TBD	(1)
2021-2025	<u>2,857,142</u>	TBD	(2)
	<u>\$ 4,000,000</u>		

(1) On June 17, 2018, the interest rate will be adjusted to 1/2 of the then-current 10-year MMD index and again on June 17, 2019.

(2) On June 17, 2020, and on each subsequent June 17, the interest rate for any outstanding principal balance shall be adjusted to the then-current 10-year US Treasury rate through final payment of the loan.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

**NOTE 3 - DETAILED NOTES ON GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS
- Continued**

F. Long-term Debt – Continued

Conduit Debt Obligations

Industrial Revenue Bonds are issued to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. Such bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither Cherokee County, the State nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. No Industrial Revenue Bonds were issued by the County in fiscal years 2003 through 2015.

The aggregate principal amount payable or the aggregate original issued amount for issues prior to July 1, 2002 could not be determined.

G. Landfill Closure and Post Closure Care Costs

State and federal laws and regulations require the County to place a final cover on its landfill sites when the sites stop accepting waste, and to perform certain maintenance and monitoring functions at the sites for thirty years after closing.

The County has recorded a liability in the government-wide statement of net position for the total estimated closure and post-closure care costs for the portion of the landfills filled at June 30, 2015, calculated as follows:

	MSW	C&D Cells A, B & C	Total
Total estimated current closure and post closure care cost	\$ 5,444,166	\$ 2,361,000	
Percentage of landfill capacity used to date	100%	100%	
Reported liability for closure and post closure care cost	<u>\$ 5,444,166</u>	<u>\$ 2,361,000</u>	<u>\$ 7,805,166</u>
Total estimated current closure and post closure care cost remaining to be recognized	<u>\$ -</u>	<u>\$ -</u>	
Landfill's approximate remaining life in years	<u>-</u>	<u>-</u>	

The estimated total current cost of the landfill closure and post closure care is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfills were acquired as of June 30, 2015. However, the actual cost of closure and post closure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 4 - OTHER INFORMATION

A. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the County carries insurance through the State Budget and Control Board Office of Insurance Reserve Fund. The County pays premiums to the Fund for its general insurance coverage. The agreement for formation of the Fund provides that the Fund will be self-sustaining through member premiums and will reinsure through commercial companies for each insured event. Additionally, the County participates in a self-funded program to provide workers' compensation insurance through the South Carolina Association of Counties, which works in a similar way as the Insurance Reserve Fund.

The County continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years

B. Commitments and Contingencies

Grant Programs

The County participates in a number of federal and state assisted grant programs. These programs are subject to audits by grantors or their representatives. The audits of these programs for or including the year ended June 30, 2015, have not yet been conducted. Therefore, the County's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Library Services and Construction Act, Title II

The County received monies in the year 2000 from a federal grant to assist for payment of the construction costs for a new addition to the main library. These funds were received under the Library Services and Construction Act, Title II (LSCAII). The total amount of the award was \$200,000. Per Section 770.42 of (CAFR 34) of the Federal Register, if within 20 years of the receipt of this grant the County ceases to use the facility as a library, or the Library itself were to cease to be a public library, the amount the County may be obligated to repay is the amount that equals the funds received from the United States Government, or the fair market value of the facility allocated proportionally between the United States Government funds received and the local funds received.

Litigation

The County is party to a number of lawsuits arising in the course of operations. It is the opinion of management, in consultation with legal counsel, that it cannot be determined whether resolution of the other pending cases will have a material adverse effect on the financial condition of the County.

Encumbrances

Significant outstanding purchase orders are recorded in order to reserve a portion of the applicable appropriation in a given fund. Significant purchases of \$1,142,778, \$192,692 and \$100,000 were recorded in the General fund, Capital Projects fund and Nonmajor governmental funds, respectively in 2015.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 4 - OTHER INFORMATION - Continued

C. Deferred Compensation Plans

Several optional deferred compensation plans are available to the County's employees. The multiple-employer plans, created under Internal Revenue Code Sections 457, 401(k) and 403(b) are accounted for by the State of South Carolina. Employees may withdraw the current value of their contributions when they terminate employment. With approval of the State's Deferred Compensation Commission, employees may also withdraw the current value of their contributions prior to termination of employment if they meet certain requirements. These requirements differ among the three plans. Compensation deferred under the Section 457, 401(k) and 403(b) plans is placed in trust for the contributing employees. Neither the State nor the County has any liability for losses under the plans.

D. Pension Plans

a. South Carolina Retirement System

Plan Description - The County, as the employer, participates in the South Carolina Retirement System (SCRS) Plan - a cost-sharing multiple-employer defined benefit pension plan administered by the Retirement Division of the South Carolina Public Employee Benefit Authority (PEBA). PEBA issues a Comprehensive Annual Financial Report (CAFR) that is publicly available on the Retirement Benefits' link on PEBA's website at www.peba.sc.gov.

Benefits Provided - SCRS provides retirement and disability benefits, and an incidental death benefit is available to beneficiaries of active and retired members of employers who participate in the death benefit program. Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws, and PEBA does not have the authority to establish or amend benefit terms without a change in the code of laws. Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current annual salary.

An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit.

An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years.

Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 4 - OTHER INFORMATION - Continued

D. Pension Plans - Continued

a. South Carolina Retirement System - continued

Benefits Provided - The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of 1% or \$500 every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

Contributions - Contributions requirements of the Plan are prescribed in Title 9 of the South Carolina Code of Laws. The PEBA Board may increase the employer and employee contribution rates on the basis of the actuarial valuations, but any such increase may not result in a differential between the employee and employer contribution rate that exceeds 2.9% of earnable compensation. Employees and employers (both Class II and III) are required to contribute 8% and 10.75%, respectively, of earnable compensation for the year ended June 30, 2015. Employers also contribute an additional .15% of earnable compensation, if participating in the death benefit program. Contributions to the Plan from the County were \$854,792.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2015, the County reported a net pension liability of \$13,999,059 for its proportionate share of the total net pension liability. The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2013, using membership data as of July 1, 2013 projected forward to the end of the fiscal year, and financial information of the pension trust funds as of June 30, 2014, using generally accepted actuarial procedures. The County's proportion of the net pension liability was based on the County's contributions received by the pension plan relative to the total contributions received by the pension plan for all participating employers as of June 30, 2014. Based upon this information, the County's proportion was .081311%.

For the year ended June 30, 2015, the County recognized pension expense of \$981,174. At June 30, 2015, the County reported deferred outflows of resources and deferred inflows of resources related to the pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 396,675	\$ -
Changes in assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	-	1,180,226
Changes in proportion and differences between County contributions and proportionate share of contributions	-	-
County contributions subsequent to the measurement date	854,792	-
Total	<u>\$ 1,251,467</u>	<u>\$ 1,180,226</u>

NOTE 4 - OTHER INFORMATION - Continued

D. Pension Plans - Continued

a. South Carolina Retirement System - continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions –continued

The \$854,792 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Any other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	
2016	\$ (172,361)
2017	(172,361)
2018	(172,361)
2019	(266,468)
	<u>\$ (783,551)</u>

Actuarial Assumptions - The total pension liability was determined by an actuarial valuation as of July 1, 2013, using the following actuarial assumptions, applied to all prior periods included in the measurement:

Inflation	2.75%
Salary increases	levels off at 3.5%
Benefit adjustments	less of 1% or \$500
Investment rate of return	7.50%

Mortality rates were based upon the member's job category and gender (RP-2000). This assumption includes base rates which are automatically adjusted for future improvement in mortality using published Scale AA projected from the year 2000.

The actuarial assumptions used in the July 1, 2013 valuation were based on the results of an actuarial experience study performed on data through June 30, 2010, and the next experience study is scheduled to be conducted after the June 30, 2015 annual valuation is complete.

The long-term expected rate of return on pension plan investments is based upon the 30 year capital market outlook at the end of the third quarter 2012. The actuarial long-term expected rates of return represent best estimates of arithmetic real rates of return for each major asset class and were developed in coordination with the investment consultant for the Retirement System Investment Commission (RSIC) using a building block approach, reflecting observable inflation and interest rate information available in the fixed income markets as well as Consensus Economic forecasts. The actuarial long-term assumptions for other asset classes are based on historical results, current market characteristics and professional judgment. The long-term expected rate of return is calculated by weighting the expected future real rates of return by the target allocation percentage and then adding the actuarial expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target allocation as of June 30, 2014, are summarized in the following table:

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 4 - OTHER INFORMATION - Continued

D. Pension Plans - Continued

a. South Carolina Retirement System - continued

Actuarial Assumptions – continued

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Short Term	5%	0.03%
Domestic Fixed Income	13%	0.26%
Global Fixed Income	9%	0.27%
Global Public Equity	31%	2.42%
Global Tactical Asset Allocation	10%	0.51%
Alternatives	32%	2.39%
Total Expected Real Return	100%	

Discount Rate - The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on provisions in the South Carolina State Code of Laws. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the County's proportionate share of net pension liability calculated using the discount rate of 7.5%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.5%) or 1-percentage point higher (8.5%) than the current rate:

	1% Decrease (6.50%)	Discount Rate (7.50%)	1% Increase (8.50%)
County's proportionate share of the net pension liability	\$ 18,115,648	\$ 13,999,059	\$ 10,564,643

Pension Plan Fiduciary Net Position – Detailed information about the pension plan's fiduciary net position is available in the separately issued CAFR of the Pension Trust Funds publicly available on PEBA's Retirement Benefits' website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, P.O. Box 11960, Columbia, SC 29211-1960.

b. South Carolina Police Officers Retirement System

Plan Description - The County, as the employer, participates in the South Carolina Police Officers Retirement System (PORS) Plan - a cost-sharing multiple-employer defined benefit pension plan administered by the Retirement Division of the South Carolina Public Employee Benefit Authority (PEBA). PEBA issues a Comprehensive Annual Financial Report (CAFR) that is publicly available on the Retirement Benefits' link on PEBA's website at www.peba.sc.gov.

Benefits Provided - PORS provides retirement and disability benefits, accidental death benefits, and an incidental death benefit is available to beneficiaries of active and retired members of employers who participate in the death benefit program. Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws, and PEBA does not have the authority to establish or amend benefit terms without a change in the code of laws. To be eligible for PORS membership, an employee must be required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; or to serve as a peace officer employed by the Department of Corrections, the Department of Juvenile Justice, or the Department of Mental Health. Probate judges and coroners may elect membership in PORS. Magistrates are required to participate in PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to this work, unless exempted by statute. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current annual salary.

An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age.

An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age.

Both Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of 1% or \$500 every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase.

Contributions - Contributions requirements of the Plan are prescribed in Title 9 of the South Carolina Code of Laws. The PEBA Board may increase the employer and employee contribution rates on the basis of the actuarial valuations, but any such increase may not result in a differential between the employee and employer contribution rate that exceeds 5.0% of earnable compensation.

b. South Carolina Police Officers Retirement System - continued

Contributions – continued - Employees and employers (both Class II and III) are required to contribute 8.41% and 13.01%, respectively, of earnable compensation for the year ended June 30, 2015. Employers also contribute an additional .20% of earnable compensation for the accidental death program and an additional .20% of earnable compensation, if participating in the incidental death benefit program. Contributions to the Plan from the County were \$506,324.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2015, the County reported a net pension liability of \$5,584,002 for its proportionate share of the total net pension liability. The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2013, using membership data as of July 1, 2013 projected forward to the end of the fiscal year, and financial information of the pension trust funds as of June 30, 2014, using generally accepted actuarial procedures. The County's proportion of the net pension liability was based on the County's contributions received by the pension plan relative to the total contributions received by the pension plan for all participating employers as of June 30, 2014. Based upon this information, the County's proportion was .291680%.

For the year ended June 30, 2015, the County recognized pension expense of \$488,529. At June 30, 2015, the County reported deferred outflows of resources and deferred inflows of resources related to the pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 149,012	\$ -
Changes in assumptions	-	-

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 4 - OTHER INFORMATION - Continued

E. Post Employment Health Insurance Benefits

Plan Description - Single-employer defined benefit. The County pays a portion (up to \$200 per month) of the cost of the Medicare supplemental care premium for its retirees who meet the eligibility requirements. In order to qualify, an employee must have at least ten years of employment credit with Cherokee County and the last five years must be consecutive in a full time permanent position with Cherokee County. The retirees are required to pay the remaining amount for the insurance. The plan does not issue a financial report.

Funding Policy - As of the year end, thirty-one retirees are taking advantage of the program. The program was initiated by County Council resolution. These costs are funded on a pay-as-you-go basis. Current year expenditures recognized in the general fund and the enterprise fund amounted to \$54,509 and \$49,726, respectively.

Annual Other Post - Employment Benefits (OPEB) Cost and Net OPEB Obligation - The County's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the County, an amount actuarially determined. The ARC represents a level of funding that, if paid on an ongoing basis is projected to cover normal costs each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years.

The following table shows the components of the County's annual OPEB costs for the year, the amount actuarially contributed to the plan, and changes in the County's net OPEB obligation for the post-employment health insurance benefits:

	General Government	Peachtree Centre	Total
Annual Required Contribution	\$ 192,400	\$ 72,200	\$ 264,600
Interest on OPEB Obligation	57,100	20,900	78,000
Adjustment to Annual Required Contribution	(59,891)	(21,709)	(81,600)
Annual OPEB Costs	189,609	71,391	261,000
Contributions Made	(85,800)	(19,100)	(104,900)
Increase in Net OPEB Obligation	103,809	52,291	156,100
Net OPEB Obligation - Beginning of Year	1,429,091	521,909	1,951,000
Net OPEB Obligation - End of Year	<u>\$ 1,532,900</u>	<u>\$ 574,200</u>	<u>\$ 2,107,100</u>

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2015 and the two preceding years are as follows:

For the Year Ended June 30	Annual OPEB Cost	Employer Amount Contributed	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2015	\$ 261,000	\$ 104,900	40.19%	\$ 2,107,100
2014	328,200	94,100	28.67%	1,950,600
2013	312,100	80,500	25.79%	1,716,500

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 4 - OTHER INFORMATION - Continued

E. Post Employment Health Insurance Benefits - Continued

Funding Status and Progress - As of July 1, 2014, the most recent actuarial valuation date, the plan was not funded. The actuarial accrued liability for benefits and, thus, the unfunded actuarial accrued liability (UAAL) was \$3,510,800. The covered payroll (annual payroll of active employees covered by the plan) was \$5,779,400, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 60.75%.

Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based upon the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and historical pattern of sharing benefit costs between the employer and plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the short-term volatility in actuarial accrued liabilities and the actuarial value assets, consistent with the long-term perspective of the calculations.

In the July 2014 actuarial valuation, the projected unit credit cost method was used. The actuarial assumptions included a 4.00% investment rate of return, projected salary increases of 2.50%, inflation rate of 2.5% and the healthcare cost trend rate to be 7.50%. The UAAL is being amortized as a level percentage of projected payroll on an open basis over a 30 year period. A copy of the complete actuarial report is available at our county offices located at 110 Railroad Avenue, Gaffney, SC 29340.

CHEROKEE COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2015

NOTE 5 – RESTATEMENT

The County implemented Governmental Accounting Standards Board (GASB) statement 68, *Accounting and Financial Reporting for Pensions (an amendment to GASB Statement No. 27)* and GASB statement 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date (an amendment of GASB Statement No. 68)*, in the fiscal year ending June 30, 2015. The implementation of the statements required the County to record beginning net pension liability and the effects on the net position of contributions made by the County during the measurement period (fiscal year ending June 30, 2014). Beginning net position was restated as follows:

	Government-Wide	
	Governmental Activities	Business-type Activities
Net Position - Beginning of Year - as Previously Reported	\$ 46,516,706	\$ 2,858,776
Implementation of GASB Statement 68 - Net Pension Liability	(14,721,380)	(5,909,337)
Implementation of GASB Statement 71 - Deferred Outflows of Resources	915,889	317,053
Net Position - Beginning of Year - Restated	<u>\$ 32,711,215</u>	<u>\$ (2,733,508)</u>

NOTE 6 – SUBSEQUENT EVENT

On December 17, 2015, the County sold the assets of the Peachtree Centre to MFI HC Group ("MFI Healthcare") of Brooklyn, NY for the \$9 million contract (bid) submitted by MFI Healthcare. There is a "Transition Services Agreement" in place between the County and MFI Healthcare to assure that revenues are collected, and expenses are paid by the respective parties based on the closing date. The County is required to escrow \$1 million of the sale proceeds for a period of 18 months in accordance with the sales contract. The financial impact of this transaction and operating activity through the transition period will be determined and reported in fiscal year 2016.

STATISTICAL SECTION

STATISTICAL SECTION

This part of Cherokee County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends Information	87-91
These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.	
Revenue Capacity Information	92-95
These schedules contain information to help the reader assess the County's most significant local revenue source, the property tax.	
Debt Capacity Information	96-99
These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.	
Demographic and Economic Information	100-102
These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place and to help make comparisons over time and with other governments.	
Operating Information	103-104
These schedules contain information about the County's operations and resources to help the reader understand how the County's financial information relates to the services the County provides and the activities it performs.

Table 10

Cherokee County, South Carolina
Direct and Overlapping Governmental Activities Debt
As of June 30, 2015

Jurisdiction	Debt Outstanding	Estimated Percent Applicable (1)	Estimated Share of Direct and Overlapping Debt
Direct Debt:			
Cherokee County	\$ 10,790,000	100.00%	<u>\$ 10,790,000</u>
Overlapping Debt:			
City of Gaffney	1,636,367	100.00%	1,636,367
Town of Blacksburg	393,847	100.00%	393,847
Cherokee County School District No. 1	8,819,007	100.00%	8,819,007
SCAGO Education Facilities (on behalf of CCSD#1)	29,775,000	100.00%	<u>29,775,000</u>
Total Overlapping Debt			<u>\$ 40,624,221</u>
Total Direct and Overlapping Debt			<u><u>\$ 51,414,221</u></u>

(1) For debt repaid with property taxes the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the County's boundaries and dividing it by each unit's total taxable assessed value.
